

TO PROTECT LIFE AND PROPERTY-DAUGHERTY

ATTORNEY GENERAL DAUGHERTY ISSUED STATEMENT MONDAY

**Says the Government Will See That Mail
Trains are Continued and Interstate Com-
merce is Not Interrupted—Will Send U. S.
Deputy Marshals Wherever Needed**

(By The Associated Press)
CHICAGO, July 10.—With increasing numbers of state
troops and emergency forces of United States deputy mar-
shals on guard wherever outbreaks have been threatened,
the government today announced that life and property
would be protected, the mails continued and interstate
commerce not interrupted, despite the strike of railway
shopmen.

After a conference with President Harding, Attorney
General Daugherty said that the government would make
sure that law and order were preserved thru the appoint-
ment of deputy marshals. He said their appointment was
authorized and that they would be sent in wherever strike
disorders justified.

The attorney general's announcement came shortly af-
ter Acting Governor Sterling of Illinois had ordered five
companies of national guardsmen to Bloomington to pro-
tect the shops of the Chicago & Alton railroad.

At Clinton, Ill., where the Illi-
nois Central shops have been un-
der guard of state troops since
Saturday night when an outbreak
was threatened following a fatal
shooting affray, the day passed
in comparative quiet although several
shots were fired by sentries at a
group of men who were believed
to have been advancing to attack
the shops. The attackers fled,
none of them being injured.

Aside from a few clashes, the
cancellation of some passenger
trains on the shorter runs and the
re-opening of shops in various
sections of the country there were
few developments on the day
which railway executives had ex-
pected to furnish the turning
point of the strike because of the
ultimatum of many roads that all
strikers who did not return to
work today would forfeit their
seniority rights.

Little disorder was reported as
the result of the efforts of the
roads to re-open their shops. At
Hoxie, Ark., fifty non-union work-
ers were chased to entrain for Poplar
Bluffs, Mo. The "Katy" shops
in Parsons, Kans., the scene of
rioting earlier in the strike, re-
opened under the protection of
300 national guardsmen with 150
non-union men on duty.

At Erie railroad headquarters
in Chicago, where a labor bureau
was established after the strike
was called, the following sign was
posted at noon "No men wanted.
Quota full." The Illinois Central
announced that any of its men
who returned to work before July
17 would retain their seniority
rights.

Some curtailment of train ser-
vice was reported from Missouri,
Louisiana, Illinois, New York and
several other states. J. E. Taus-
sig, president of the Wabash rail-
way company, appealed to the gov-
ernment for protection for his
road's shops and said that strik-
ers had stopped a mail train at
Moberly, Mo., by cutting the air-
hose and throwing rocks thru the
windows of the coaches.

Following reports from Bloom-
ington, Ill., that an effort would
be made tomorrow to call a strike
of the Big Four brotherhoods, on
the grounds that they should not
be compelled to work under the
protection of state troops, word
was given out in labor circles that
Warren S. Stone, representing the
engineers L. E. Sheppard, head
of the conductors, and W. S. Car-
ter, representing the firemen,
would arrive in Chicago soon to
"discuss matters of policy" with
the railway executives.

**GIRL SUICIDES
IN NEW YORK CITY**
NEW YORK, July 10.—Miss
Helen Hman of Battle Creek,
Mich., said to be suffering from a
nervous breakdown, was success-
ful tonight in a second attempt to
commit suicide, when she jumped
from the window of an apart-
ment on the fifth floor of a house
on Riverside drive to an area way
in the rear of the building.

Because of previous attempt to
end her life, Miss Hman's nurse
had been warned to watch her pa-
tient carefully. When the nurse's
back was turned for a moment,
Miss Hman sprang from the bed.
The nurse warned the nurse, who
turned around to see her patient
running toward the window. She
climbed out of the window sill. But
when she jumped the clothing
parted in the nurse's hands. She
died in a hospital an hour later.

CLINTON I. C. MEN WILL ASK REMOVAL OF SUPERINTENDENT

**Want C. W. Shaw, Head of
the Springfield Division
Decapitated**

(By The Associated Press)
CLINTON, Ill., July 10.—A
committee of six representing
local railroad trainmen's unions
started tonight for Chicago to
present a formal demand to offi-
cials of the Illinois Central rail-
road for removal of C. W. Shaw,
superintendent of the Springfield
division.

This action was authorized in a
meeting of members of the en-
gineers, firemen's, conductors' and
switchmen's organizations held
this afternoon.

During the meeting the em-
ployees went on record as opposed
to the conduct of Superintendent
Shaw since the federated shop
crafts of this city were ordered on
strike by their union heads.

The fifth warrant in connection
with the shooting of James Fitz-
gerald, Jr., was issued today by
State's Attorney William F. Smith,
charging George Pullen
of Kenney, Ill., with man-
slaughter.

All stores will close tomorrow
for one hour during the funeral
of Young Fitzgerald. Civil au-
thorities and union officials said
they anticipated no violence.

State's Attorney Smith an-
nounced that tomorrow he and
Sheriff John W. Persons will
question Wesley Davis, one of the
five former railroad guards
charged with manslaughter. Davis
is held prisoner in the jail at
Monticello, Illinois.

MEXICAN AVENGES DEATH OF FATHER

(By The Associated Press)
MEXICO CITY, July 10.—Maria
Del Pilar Moreno, 15, this after-
noon avenged the death of her
father, Jesus Z. Moreno, editor of
El Herald de Mexico, who was
shot and killed last May by De-
puty Francisco Tejada Llorca after
a quarrel.

Maria waited before Tejada
Llorca's home and as he stepped
from the doorway fired four times
at a few feet distance. All the
bullets took effect and death was
instantaneous.

The child, who since her father's
death has been almost de-
ranged with grief, calmly sur-
rendered to the police. She said she
swore vengeance over her father's
body and now that his death had
been expiated, she was prepared
to die.

CROPS IN GENERAL GIVE PROMISE OF BETTER HARVESTS

**Forecasts That Aver-
age Will be Better
Than in Five Years**

(By The Associated Press)
WASHINGTON, July 10.—Crops
in general promise better
harvests this year than their
average for the last five years, fore-
casts of the department of agri-
culture, based on July first condi-
tions, issued today indicate.

Bumper crops of white and
sweet potatoes and tobacco are
forecast and most of the crops
are larger than last year's. With
the exception of wheat, corn and
oats, acreages this year range
from one to 22 per cent larger
than those of 1921.

Corn acreages are increased
this year in most of the corn belt
states but in the cotton states de-
creases are shown while in Iowa,
largest producing state, there is a
two per cent decrease and in
Missouri a three per cent de-
crease. The crop in general made
good progress to July 1.

Win or wheat production fore-
casts show a decline of 38,000-
000 bushels compared with June
forecasts. Severe damage has
been reported from white waves
and hail storms in Kansas, from
drought, high temperatures and
winds in Nebraska, and from
shriveling in Oklahoma and black
chaff and take-all in some sec-
tions. Wheat remaining on farms
July 1 is 31,641,000 bushels, or
25,000,000 bushels less than
stocks a year ago.

The large crop of white pota-
toes forecast this year is due
largely to increased acreage in
western and northwestern states
while all important producing
states show increases of from five
to ten per cent.

The 19 leading crops have a
total area of 341,753,000 acres
this year compared with 345-
140,000 acres last year, a reduc-
tion of about one per cent, due
principally to winter wheat and
oats.

The acreage, condition and
forecast of production of corn for
these states, follow:
Illinois, 8,819,000; 84 and
303,726,000.
Indiana, 4,765,000; 82 and
170,749,000.
Iowa, 10,123,000; 91 and 396-
113,000.
Missouri, 5,913,000; 82 and
160,006,000.
Nebraska, 7,419,000; 90 and
200,313,000.
Kansas, 5,291,000; 83 and 94-
7,000.
Texas, 6,165,000; 78 and 122-
622,000.

The condition July 1 and pro-
duction forecast of winter wheat
by the states, follow:
Illinois, 83, and 42,259,000.
Indiana, 83 and 32,046,000.
Missouri 79 and 40,715,000.

ALTON SHOPS AT BLOOMINGTON IN CHARGE OF TROOPS

**Five Companies of Na-
tional Guard Arrived
There Yesterday**

(By The Associated Press)
BULLETIN
BLOOMINGTON, Ill., July 10.
Three shots were fired at state
troopers guarding the Chicago &
Alton shops shortly after midnight.
No trace of the person shooting
was found.

Twenty five men congregated at
a strikers' picket post in front of
a grocery store at the north end
of the shops were warned to dis-
perse and a machine gun was set
up to cover the strike pickets.

Lieutenant-Colonel Charles Neu-
man ordered the sentry details
doubled and posted additional
machine gun units at vantage
points.

A sentry reported to the lieuten-
ant colonel that the strike pickets
had warned two women who
passed the store to get out of the
way "for the fire works are
about to start."

BBLOOMINGTON, Ill., July 10
—Five companies of Illinois Na-
tional Guardsmen tonight are hold-
ing the Chicago and Alton shops,
where 2,000 men are out on strike
and the union depot, headquarters
for the Alton, Big Four and Lake
Erie, located to protect to vol-
unteer workers.

Two machine gun units and in-
fantry companies armed with
Springfield automatic rifles have
established their outposts around
the shops. Colonel Culbertson,
commanding the 130th infantry,
with one company, has established
headquarters at the depot.

Hundreds of strikers and strike
sympathizers watched the troops
unload and march to their places.
The first two companies, from
Springfield and Peoria arrived at
1 p. m. and were greeted with
jeers and ribald comment.

They were followed within an
hour by the Danville machine gun
company and a rifle unit from
Pontiac. Shortly after 5 o'clock
the Delavan machine gunners, a
crack overseas company, detain-
ed and moved into camp.

The main camp has been estab-
lished in the heart of the big
shops, which occupy a tract a
half mile long and a third of a
mile wide.

Pup tents were quickly pitched
and, after a hasty survey of the
shop district sentries were posted.
Colonel Culbertson issued orders
barring assemblage of more than
ten people any place within two
blocks of the railroad yards and
shops, and prohibiting admittance
of any one to the railroad prop-
erty without a pass signed by him-
self.

The railroad officials announce-
ed that volunteer workers who
were driven from the shops last
Friday night by a mob of 300 or
400 strikers will return immedi-
ately to handle the coaling and re-
pairing of freight, passenger and
switch engines.

Whether an attempt will be
made to re-open other depart-
ments of the shops with non-union
workers recruited at Chicago, rests
with President W. G. Biew, who
returned to Chicago early today.

While the troops were taking
possession at the Alton shops,
Federal Judge Louis Fitz Henry
in Federal court here, issued or-
ders to the Wabash and Illinois
Central railroads restraining
strikers from interfering with the
operation of shops and trains thru
out the thirty-nine counties of the
Southern district of Illinois.

The restraining orders prohib-
it picketing, intimidation, con-
spiracy and interference with in-
terstate traffic.

Charles C. Leforgee, of Decatur
and Judge Brown of St. Louis,
general solicitor of the road, ap-
peared for the Wabash, while the
Illinois Central was represented by
John G. Brennan of Chicago
and Frank Lemon of Clinton.

STRIKE SETTLEMENT PLAN SUGGESTED BY PRESIDENT HARDING

**Calls for the Immediate Resumption of Work
by the Miners Now Out on Strike at Wage
Rates of March 31st Last—Will Immedi-
ately go Into Conference to Consider Plan**

(By The Associated Press)
WASHINGTON, July 10.—President Harding today
placed before leaders of employers and employees of the an-
thracite and bituminous mine fields a government plan for
settling the coal strike. It called for immediate resump-
tion of work by miners now out at wage rates of March 31,
last, for fixing of permanent wage levels by arbitration and
for an investigation to recommend solution of permanent
problems in the coal industry.

All representatives of the groups concerned tonight had
delayed definite answers although union officials informed
the president they had no power to give acceptance or re-
fusal, but would summon the general policy committee of
the United Mine Workers here Saturday to consider the
matter.

A day of conferences at the white house and all other
offices with Secretaries Hoover, Fall, Davis, and Attorney
General Daugherty participating, was taken to bring mat-
ters to this stage.

Alfred M. Ogle, chairman of
the bituminous operators group,
indicated his associates consid-
ered an arbitration plan they had
offered last week, for district set-
tlement, "the best and fairest
way" to get the mines open, but
John L. Lewis, president of this
union, classed this "as obsolete
in the light of the president's pro-
posals." Anthracite operators were
silent.

Both bituminous and anthra-
cite sections of the general con-
ference of the coal industry had
indicated a deadlock today before
President Harding brought for-
ward the arbitration plan. The
government, "concerned with coal
production sufficient to meet the
requirements of the country," he
said, "desired to have production
resumed." He proposed that mine
workers should return on the old
wage scale and that a commission
of five representatives of the pub-
lic, three of the miners and three
of the operators, should fix before
August 10 a temporary basic
wage scale to be held in effect
until March 1, 1923. If its delib-
erations should not result in a
scale by August 10, the president
further suggested that the wage
levels at the time work was stop-
ped should continue until a new
wage scale was ready.

In addition, the commission pro-
posed, the president said, should
"investigate exhaustively every
phase of the coal industry" and
"reveal every cost of production
and transportation." Congress
would be asked, it was added, to
make appropriations to finance
and authorize its work.

"I have taken this short cut
to the resumption of operations
because I believe it is in the in-
terest of the public welfare," the
president concluded.

He enjoined all participants to
give the proposal consideration in
separate conferences and this was
done immediately. The miners
formulated their temporary an-
swer in a letter explaining this po-
sition.

gree murder warrant sworn to by
Smith's brother. The constable
was killed a month ago when he
with an assistant stopped to ques-
tion occupants of two darkened
automobiles on a road near here.
One of the cars was found to be-
long to Spaulding.

The meanest man of all was recently discovered in Adams county. He was arrested for beating his wife, who is ill with tuberculosis. When the fiend was taken into custody and started away to jail he was so surly he refused to say goodbye to any one of his three little children. What punishment would be fit for such a case?

Conventions are being held in the south, the east, the north and the west, at this season of the year. In fact, conventions in the United States are in progress most of the year. Sometimes the suspicion comes that the railroad managers are the real instigators of conventions and that they are promoted for business reasons. Be that as it may, most of the time at an average convention is spent on everything but real business.

An Illinois supreme court decision declares that the taxes shall be levied upon fire insurance companies in the manner provided by the city of Chicago. Under the ruling, fire companies are to pay taxes on their net receipts after deducting operating expenses, but deductions of regular overhead expenses are not allowed.

It is estimated that the decision will mean a million dollars

additional taxes for the companies. So there will be more revenue in the hands of the city or state—but the purchaser of fire protection must pay the bill.

News from Germany in recent days has been most distressing. The value of currency has sunk to a new low level, and the public seems tottering. Those who study the situation see grave results if the government does fail. They see possibilities of a second Russian situation, with all that means.

However, it is well to remember that the German government has "tottered" before and still chaos has not come.

President Harding has made a clear, clean-cut proposal to the mine operators and miners to resume work on the old scale pending the settlement of their differences by an arbitration board. The proposed plan of arbitration, which also includes the proposal for an exhaustive investigation, opens the way for the early resumption of mining.

If the proposal is not accepted by both miners and operators the public will understand that they really do not want to resume mining at this time and that there is something behind the suspension of mine work which thus far has not been made known.

THE REAL STRIKE ISSUE
The real issue in the railroad strike thus far is not whether the wages fixed by the railroad labor board are fair, but whether a finding by a lawfully constituted body shall be observed. An individual workman has full right to quit his job but no individual or group of workers has the right to obstruct transportation.

It was to avoid this very thing and with the purpose of doing justice to the workers, the railroads and the public, that the law was passed making provision for the labor board.

President Harding's course in the present situation may be

judged in the following paragraph, taken from a letter written by him while a member of the senate: He said at that time "If the government representing all the people cannot guarantee transportation service under any and all conditions, it fails utterly. If that same government cannot provide just consideration of the workmen operating the transportation system, it fails again. It ought and must do both."

THANK GOD FOR FOOLS.
Thank God for fools—for men who dare to dream
Beyond the horizon of their days
Men are to timid to pursue the gleam
To unguessed lands of wonder and amaze.
Thank God for fools! The trails that ring the world
Are dark with blood and sweat where they have passed
Theirs are the flags on every crag unfurled;
Theirs—Ashes and oblivion at last.
Blundering, fumbling up the frowning years;
Stumbling through deeps too foul for moon or star;
Hearing—and heeding not—the scoffs, the jeers;
Falling at last while yet the goal was far.

Poor ragmuffin heroes, doomed to fail
And leave their bones beneath ironic skies,
They never knew their wandering blazed the trail,
Their blunders taught their wisdom to the wise!
Thank God for fools—asburd and blind and great.
We rears our temples on the stones they laid.
Ours is the prize their tired souls might not wait;
Theirs—the high requiem of the unafraid!

GOLD MEDAL SHOWS
OPEN THIS WEEK
The fattest man in the world, the death defying snake charmer, and the original coon minstrel show, in fact every feature of the traditional carnival and more too, are on hand at the Cannon lots this week. The Gold Medal shows have fourteen special shows and many rides and "games of skill" concessions.

Daredevil O'Brien thrilled scores by his daring exhibition in the "motorcade." For most of the way up the sides of the dome are straight, but this didn't bother O'Brien, he went right up the walls and circled the last foot of the top, going at a tremendous speed.

Jolly Eddie, the fat man is a bouncing young man of only 523 pounds weight and a broad grin. "Bathing" Britt, the local colored fighter, engaged the carnival athlete in a ring battle of several rounds. Both men exchanged heavy blows but no decision was rendered.

Altho the Cannon lots received a drenching rain last night, the hundreds of enjoyment seekers present did not mind greatly and sought shelter in the various tents, thus adding the show business.

GREEKS WERE MODEL PRISONERS

The Quincy Herald in commenting upon the excellent conduct of the Greek trackmen during their trial and as they entrained for Joliet, had this to say:

All of the seventeen were docile, even glad, to leave the close confines of the county jail where they have been since being brought here from Jacksonville where they were jailed on the day after the fatal shooting that resulted in the deaths of Deputies Carl Neff and Frank Utter in addition to that of Lashbrook.

None of the prisoners was handcuffed. There was no necessity for putting manacles on the hands of the Greeks. They marched to the train, boarded it in a quiet manner and took seats on one side of the coach. Before leaving, each of the convicted men was given a package of cigarettes. These little delights of the smoker are barred in the county jail. As a result the Greeks lost no time in literally "eating up" the "cotton balls." The sheriff's force had no trouble with the men. The Greeks acquitted themselves in the same quiet and orderly manner that characterized their actions while they sat passively in the cell room through the three weeks of the trial.

LAW REQUIRES PUBLICATION OF STATEMENTS

The attention of public officers who disburse money is called to the provisions of the state law which require a public statement of their receipts and expenditures:

"Each public officer, other than a state officer, who, by virtue of his office receives for disbursement and disburses public funds in the discharge of governmental or municipal debts and liabilities, shall, at the expiration of each fiscal year prepare a statement: (1) Of all moneys received and from what sources received, giving items, particulars and details; (2) Of all moneys paid out, giving the name of each individual to whom paid, on what account paid, and the amount. Such statement shall be subscribed and sworn to by the public officer making such statement, and, within thirty days after the expiration of such fiscal year shall be filed in the office of the county clerk in which such public officer resides.

"Such public officer shall also within thirty days after the expiration of such fiscal year, cause a true, complete and correct copy of such statement to be published one time in a newspaper published in the town, district or municipality in which such public officer holds his office. . . . The cost of such publication shall be paid by the public officer causing such publication to be made and shall be paid out of the funds in his hands." (From state law approved June 24, 1919.)

CONTRACT FOR SWIMMING POOL AWARDED

The park board met yesterday noon at the city building and received sealed bids for the construction of the proposed swimming pool at Nichols park. But two bids were received, Jos. DeGoveia, \$10,382; Mr. Chumley, \$8,850. The contract was accordingly awarded Mr. Chumley. One of the conditions is that the work shall be done in sixty days. The successful bidder is a man of energy and has a good force of men and will push the work right along as rapidly as possible. It now looks as if the city would have a first class place for swimming at an early date.

All precautions have been taken for sanitation and the hope is that the affair measurably fill a long felt want.

C. & A. MAKES ENVIABLE RECORD
During the year 1921 the Chicago & Alton handled 3,077,637 passengers without a single fatal injury to any of them. This speaks volumes for the safety first vigilance and efficiency of "The Only Way" employees.

George A. Taylor and wife left yesterday morning for Rochester, Minn., to consult the Mayo Brothers.

EFFECTS OF STRIKE ARE FELT LOCALLY

Thru Freight Shipments of Live Stock are Discontinued—Packing Company Still Receiving Shipments.

Thru freight service has become a victim of the striking shopmen and is the first blow to be felt by local industries. The shipments of livestock from this city have been completely discontinued until further developments which will justify the continuance of thru freights. Perishable goods are also refused by the local offices for shipment for any distance, except at the risk of the shipper.

Altho the effect of the shipping tie-up is felt to some extent in this city and neighboring territory it has not yet grown serious. Fred Bogg, of the Powers-Bogg Packing Company states "As yet I am not in effect upon the packing interests of Jacksonville as we are receiving plenty of cattle. Our shipments are still continuing." The local company would be one of the first to feel the effects of a tie-up of live stock should it become serious and their present immunity gives the strike a brighter aspect.

The C. B. & Q. railroad is the only one in the city which continues to run full schedule and run only local freights. There are rumors afloat which tend the belief that even local service will be discontinued in a few days. In such an emergency it is probable that regular truck lines will be established between neighboring towns to handle the freight. Cattle could be easily brought to the local packers from the surrounding towns by truck, so that it is probable that the Jacksonville people will not suffer at all from the strike unless it should last for an unforeseen length of time.

Grace Church Doings

In spite of the warm weather there are visitors and new scholars in attendance each Sunday in the Sunday school. The loyalty of the teachers and officers is commendable. There were 22 present and the offering amounted to \$9.90 in the Sunday school.

At 6:30 the young people of the First Baptist church met with the League members of Grace church in union meeting, with Chas. H. Story as leader, special music was furnished by members of the Short family. The attendance was good.

Upon the church lawn at the union service, Rev. Stickney preached upon the theme "Faith." The largest crowd of the season was present.

The members of Scout Troop Seven go into camp at the Rotary Cottage at Mercedos for a week on Monday. A fine time is anticipated by the boys.

The monthly meeting of the teachers and officers of the Sunday school will be held at Nichols park on Monday evening. A picnic supper will be served at 6:30.

TOM MIX
and EVA NOVAK, in
'Chasing the Moon'
A Whirlwind of Action and Fun
With his usual zest and his exhibition of the joy of living, the Fox star travels half way around the world in this picture. He cuts his hand and is told that deadly poison has entered into the cut. A certain professor knows the only antidote. Mix must reach the professor in a month or die; and the professor is about to sail for Russia. He starts on horseback, changes to an auto, and keeps swapping cars and motorcycles until he reaches the steamship pier—only to find the steamer has sailed; only to find his man took an earlier vessel. The professor keeps a couple of jumps ahead of Tom until first Russia, then Spain, is reached.
All this time his best girl (Eva Novak) is chasing Tom to tell him that after all he was not poisoned, but if he takes the antidote he will die anyway. So it's a terrible mix-up. And what's worse, bandits get a hold of him. The stunts he does so bewilder the bandits that their brains begin to work backwards. But it all ends well.

MONTHS OF SUFFERING

How a Baltimore Girl Recovered Her Health

Baltimore, Maryland.—"For several months I suffered with severe backache and general weakness. I could not sleep comfortably at night for pains in my back. I found your book at home one day and after reading it began at once to take Lydia E. Pinkham's Vegetable Compound. I have had very good results and some of my girl friends are taking it now. You may use this letter to help other girls, as the letters in your book helped me."

ROSE WARDNER, 3018 Roseland Place, Baltimore, Md.

That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well.

Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

AN OLD METHOD OF THRESHING
A few days since the Journal published an article relative to different ways of threshing and asked if any one of its readers had ever seen a ground thresher.

No one has thus far reported but the Journal's esteemed friend John Dodsworth of Lynnville says before he left his native England he saw a peculiar threshing machine. It was in reality a ground beater being a strong box set on the ground and supplied with something like blades which revolved on an axis and were turned by four horses. The operator would take a sheaf of wheat, feed the heads into the machine and hold the sheaf till he regarded the heads were well beaten out. Of course this was a very primitive affair and not at all like a machine with a regular cylinder with teeth. Mr. Dodsworth says he saw the wheat beater 74 years ago in Sammaridge, on the farm of a man named Ayers, not far from Searborough.

Don't forget we sell the style bathing suits that can girls, boys and men, at Tomlinson's.

A. R. Giberson of Springfield, was in the city Monday representing the J. I. Case company.

ALTON SHOPS AT BLOOMINGTON IN CHARGE OF TROOPS

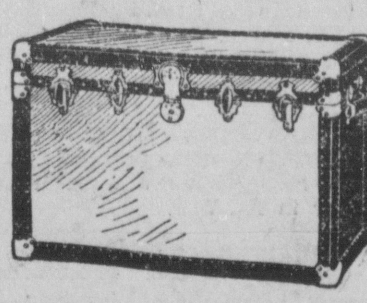

(Continued from Page One)
Is no such thing as "peaceful picketing" and that all interference by strikers with workers was unlawful.
The restraining orders were specially directed at striking snopmen at Clinton, where troops are now in charge, and at Decatur, where soldiers were mobilized last week.
Crowds watching the soldiers take charge of the shops here were in an ugly mood and Sheriff Jacob Morrison and other city and county officials who conferred with Colonel Culbertson expressed fear that there would be trouble tonight. Strikers congregated about the station before the troops arrived threatened to "put a rope around the neck" of any strike breakers who are brought into Bloomington.
United States Marshal Robert R. Levy of Chicago, conferred with Judge Fitzhenry here this afternoon and he had served an injunction issued by Federal Judge at Chicago, on strikers at Galesburg and Beardstown. The situation became more threatening as night progressed. At 9 o'clock more than 2,000 people lined the "dead line" on the west and north sides of the shops, and another 500 gathered at the depot. Rain which began falling shortly before 10 o'clock drove many to shelter.
Sentries pacing their posts were jostled and jeered by the crowd. At Empire and Lumber streets, the main west side entrance to the shops, 800 men, women and children formed along the sentry line and as fast as the guardsmen passed they crowded across the line. Guns with fixed bayonets were brought into play time and again held horizontally to force the jeering through back.
The crowds included hundreds of curiosity seekers and a large number of boys.
It was here that the trouble started last Friday night, when 400 or 500 men drove workers from the shops. The main camp of the guardsmen is less than 300 feet away, and machine guns mounted there swept the entrance.
At the union station, where the Springfield company is stationed, there was some rock throwing early in the evening, but the majority of the crowd contained themselves with sarcastic criticism of the sentries.
The pickets were doubled at 9 o'clock, walking their beats in pairs.
At midnight Lieutenant Colonel Neuman sent a strong detail to Seminary avenue, north of the shops to seize and search fifteen men reported congregated there, armed with revolvers.
Clerks on the night shift in the shops left their posts at 11 o'clock in accordance with their union's decision not to work under protection of state troops.
Officials of the six shop crafts, meeting with Colonel Culbertson tonight promised to do all possible to avert trouble. They reiterated their objection to having guardsmen here, but said that in as much as the soldiers had arrived, they would try to make their stay pleasant.

TARIFF SCHEDULE AGAIN RUNS INTO TROUBLED WATERS

Republican Agricultural Bloc Wins and Loses Point
(By The Associated Press)
WASHINGTON, July 10.—Failure of the Republican agricultural tariff bloc on a tie vote, 28 to 28, to win its fight for a rate of 1 1/2 cents a pound on soy beans and the approval 52 to 13, of the existing emergency rates of three cents a pound on unshelled peanuts and four cents a pound on the shelled, marked senate consideration today of the tariff bill. The soy bean rate approved was four tenths of one cent a pound.
In re-writing the tariff the finance committee majority cut the rates on unshelled peanuts to three fourths of one cent a pound and on shelled peanuts to one and one half cents a pound but it receded from that point today.
Other rates approved today included:
Eggs, in the shell, eight cents a dozen, an increase of 2 cents over the house rate; frozen or otherwise prepared 6 cents a pound, house rate 4 cents; dried, 18 cents a pound, house rate 15 cents.

Pretty Girls In Circus Spectacle

It's no trick at all to assemble a ballet of girls good to look at in the strip of California dedicated to the one piece bathing frock, and that's where the winner home of the Al G. Barnes circus, coming to Jacksonville, Friday July 14 is located. Yes, it's no trick at all to find pretty beach flappers, who can dance a

bit. But it's another story when it comes to singing voices, for Al G. Barnes, producer, composer and librettist of each new edition of that beautiful fairyland pageant and fantastic extravaganza, "Alice in Wonderland," the opening spectacle of the circus performance, is insistent in the matter of singing voices. Every one of

the hundred ballet and chorus girls must possess a singing voice, a trained voice. Of course there is a chance for a personable girl with an untrained voice, if it is naturally of promise. And, as much of the ballet and chorus work in "Alice in Wonderland" is done among wild and domestic animals, no little courage is re-

quired. However, the girls are well paid, well housed in standard sleepers and looked after by the wardrobe matron. There are hundreds of applicants every winter—girls from the picture studios nearby, girls from road shows, girls from the vocal, dancing and dramatic schools of Los Angeles.

Mr. and Mrs. Elmer McCullough and son William of Riggins were in the city yesterday.

LONG'S PHARMACY

IT'S HERE!

Here, at last, is a film that rivals the performance of the human eye. Think what that means. All day long the human eye registers pictures. The light changes, but the human eye never misses. First the weaker light of early morning. Then stronger and stronger rays until the intensity of noon. Later the soft mellow light of the supper hour. Now sunshine—now clouds. Always the eye adapts itself to the character and intensity of the light. For years it has been the dream of chemists to produce a film adaptable like the eye—one that would get the picture under a much wider range of light conditions than was possible with film of the past.

Long-Needed; Here It Is.
Now, at last, comes the new Ansco film which has that wider range of exposure. This New Ansco film works much like the human eye. It adapts itself to existing light conditions. It picks up the picture clearly when the light is poor and retains it just as clearly when the light is extra brilliant and intense. No other film gives such wonderful range of exposure.

NEW JUVENILE BOOKS AT PUBLIC LIBRARY

Price, E. B.—Blue Magic. This is the story of hero whose name is "Sidderticus"—an assumed title which piques curiosity. To give more than a hint of what it means would spoil the effect of a joyous surprise for the reader.

Miller, W. H.—Black Panther of the Navaho. In the wilderness of the Southwest, where the Navaho tribesman pitch their tents two boys, Sid Colvin and his pal, Scotty, accompany Colonel Colvin on a hunting trip. They find that there is great excitement among the Indians because of a freak cougar, colored black, which has been raiding the sheep folds and which the red men believe to be a sacred beast of their legends and to kill it a sacrilege. The reader follows the boys in their adventures across the painted deserts, among the ruined dwellings of cliff dwellers through the smoke and flames of the Navaho fire dance and the boys will revel in the very real picture of Indian life and customs.

AGED LOCAL RESIDENT PASSED AWAY SUNDAY

Mrs. Sarah J. Blackburn Long and Useful Life Is Ended—Funeral Service Will Be Held Today.

The death of Mrs. Sarah Jordan Blackburn occurred Sunday night about 7 o'clock at the family home, 283 Sandusky street. Death came to her as a release from suffering, as she had been practically an invalid for two years and in recent months as the result of a fall often suffered acute pain.

After spending practically all of her life in the Ebenezer neighborhood Mrs. Blackburn with her husband, the late Edmund Blackburn, removed to Jacksonville in the fall of 1920.

The funeral will take place this afternoon with a brief service at 1:45 o'clock at the home and a further service at 2:30 at Ebenezer church, four miles northwest of Jacksonville. Interment will be in the cemetery near the church, where Mr. Blackburn is buried as are other members of the Blackburn and Jordan families.

The deceased was born August 2, 1843, a daughter of Mr. and Mrs. William S. Jordan, pioneer residents of Ebenezer neighborhood. In childhood she attended the schools of the neighborhood and in later years came to Illinois Woman's college, then known as Illinois Female college. This was during the presidency of Dr. Adams, one of the pioneers in educational work in this part of the state.

When school days were over, in August 1877, the deceased became the wife of Edmund Blackburn and their home, established in the Ebenezer neighborhood, became almost an institution there. From that home radiated much of the influence that has always given Ebenezer neighborhood a name synonymous with that which is best in life.

Mrs. Blackburn, like her husband, entered very actively into the affairs of Ebenezer church of which she became a member in her girlhood. Early in her married life she became the president of the Woman's Missionary society and then a teacher of the primary class in the Sunday school. For a long period of years she continued these lines of work and was also interested in other church activities.

The Blackburn home had its distinct place in the Methodism of Morgan county. Rev. Peter Akers, whose name is closely identified with the earlier history of the church in Morgan county, was a frequent visitor there. A portrait of Dr. Akers has hung upon the walls of the Blackburn home from that early day down to the present hour. The fact is significant for it evidences the interest in Methodism and in the work of the church at large which has been maintained all thru the marching years. It was Mrs. Blackburn's delight, along with her husband to entertain at a general gathering the Methodist ministers from all this locality at least once a year, and the practice was continued for a long period.

Keeping pace with the religious interests that the deceased had in the church, was her thought for her home and the immediate members of her family. The maintaining such definite ideas on religious matters, Mrs. Blackburn did not obtrude her views upon others. Her thought seemed to be that people naturally choose those things that are good and worth while if given a chance to know the facts of life. So while vigorous in her own beliefs and strict in habits of living, she was gentle in heart and spirit.

A generous spirit of service ruled in the Blackburn household thru all the years and the mother of that home found no day too long, no task too arduous when the welfare of her family was concerned. That spirit of unselfish service ripened with the passage of time and no doubt prepared Mrs. Blackburn for the later period of life. Those years gave her the calmness of spirit which dominated to the end and enabled her without murmur or complaint to meet the days of bodily weakness.

The gentleness and strength of her life, the courage with which she met the burden of the latter days, will always be an inspiration to the members of her immediate family, and to near friends.

Mrs. Blackburn is survived by one brother, W. H. Jordan, of this city, and leaves also three daughters and one son: Mrs. Frances Campbell, Tuscola, Ill., Mrs. Elizabeth Martin, Miss Ella G. Blackburn and Fletcher J. Blackburn, all of this city.

There are also six grandchildren, Gerald and Lois Campbell, John Martin, William, Marjorie and Mary Elizabeth Blackburn; and the following step-children: Dr. M. H. Blackburn, Princeton, Charles E. Blackburn, Carl Junction, Mo.; Miss Kate Blackburn, Loveteh, Bulgaria; Mrs. Annetta Scott, and Miss Luella Blackburn of this city and Mrs. Mary Dinwiddie of Arcadia precinct.

TOURISTS PLEASED WITH TREATMENT

A year ago some tourists camped in Nichols park at a time an organization was enjoying a burgoo feast. Fletcher Hopper, one of the society, saw to it that the strangers were liberally treated to burgoo and they were delighted.

They were from Union Mills, Maryland, and wrote a series of letters describing the trip to the Westminster, Md., Gazette.

The following is an extract from one of the letters:

At Jacksonville, Ill., a large and beautiful city, and beautiful park, about two miles from the city, where tourists are invited to camp, we went into a restaurant and took lunch in the city before going to the park, as it was already late.

When we got to the park a committee called to welcome us and invited us down to the lunch room to partake of their 'Burgoo' Soup.

I said: What? 'Burgoo' Soup. We said we had lunch at one of their fine restaurants, and thanked them for the invitation, but they insisted on us to bring a gallon or two gallon bucket and get 'Burgoo,' with a taste that will not wear off, the soup with the 'moreish' taste.

We were then traveling with a family, Dr. and wife and two bright boys of about 12 and 14 years.

We went for the 'Burgoo,' and finished a gallon in the first course, and went back with the reputation of the soup fully testified to that it has that peculiar taste that will not wear off.

Just what the 'Burgoo' is made of I am not able to tell, and as to taste, cannot be described, other wise, than to partake of it. We shall always remember Jacksonville, Ill., and should we ever pass thru the state again, we would visit Jacksonville, and say 'Burgoo' Soup.

We were informed about 600 gallons of 'Burgoo' soup is prepared annually by the Knights of Pythias and everybody invited to the park, which is one of the most beautiful in the West, to have a good time.

Gentlemen, when you come East call at Union Mills, Md., and introduce yourselves as 'Burgoo' soup representatives, and we will try to entertain you best we can, not with 'Burgoo' but Chesapeake water food; either Susquehanna Shad or Chesapeake Oysters which ever is in season.

The United States Railroad Labor Board, under authority of Federal Law, after full hearing to all parties at interest, has fixed present wages for mechanical crafts. Certain employees having declined to accept their decision, the Board has directed the railroad to reorganize its forces and has ordered that men who enter our service

"are within their rights in accepting such employment, that they are not strikebreakers seeking to impose the arbitrary will of an employer on employees; that they have the moral as well as the legal right to engage in such service of the American public to avoid interruption of indispensable railway transportation, and that they are entitled to the protection of every department and branch of the government, state and national."

Standard wages and overtime conditions will be paid; hours to be those necessary for maintenance of the service.

Board and lodging, under ample protection, will be furnished. Young active men desiring to go into railroad service will be given an opportunity for training in steady desirable employment.

FRESH UPTURNS

IN PRICE OF WHEAT
 By Associated Press.
 CHICAGO, July 10.—Upturns
 in the price of wheat today re-
 sulted largely from talk about
 curtailment of grain receipts be-
 cause of railway and coal strike
 interferences with transportation.
 The wheat market closed unset-
 tled 10 to 15c net higher, with
 Sept. \$1.11 1/4 to \$1.11 3/4 and De-
 cember \$1.13 1/4 to \$1.13 3/4. Corn
 lost 10 to 15c, oats a shade to
 — and provisions 2 1/2 to 3c.
 Reports that the Chicago and
 Alton railroad had checked load-
 ing of wheat in Illinois and had
 embargoed shipments of live
 stock and perishable commodities
 formed the most specific basis for
 disquiet which wheat traders
 manifested in regard to labor
 troubles. It was evident nearly
 from the start today that specu-
 lators were watching for any
 developments which might attract
 more attention than has been the
 rule heretofore in the wheat mar-
 ket. The only decline which
 bears were able to force came at
 the opening and was associated
 with uncertainty over German
 financial conditions as associated
 with the government's
 crop report occupied the wheat
 trade in the late dealings. The
 majority of dealers anticipated
 that the report would prove
 bullish. Threshing delays with
 announcement of a decrease in
 the S. S. visible supply total tend-
 ed also to lift prices, but in the
 final half hour, the gains were
 offset by selling to realize profits.
 Corn and oats were weaker on
 account of breaking of a long
 drought in northern Illinois. On
 the decline, too, oats were in de-
 mand for New England and for export.
 Provisions reflected a setback
 in the value of hogs. It was said
 too that Germans were trying to
 cancel purchases.

NEWS OF THE SPORT WORLD

INDEES LOST TO GIRARD SUNDAY

Locals Played Good Uphill Game But Were Unable to Catch Visitors — Heavy Hitting Marked Contest.

Playing an uphill game all the way, the Indies finally lost to Girard at South Side Park Sunday afternoon by a score of 7 to 6.

The Indies got away to a bad start in the first inning when Girard bunched three hits off Vaughn and scored three runs. The Indies kept plugging away but always fell one run short of tying the score. Had they been able to tie the count it is probable they would have won the game.

Padgett was touched by the locals for eleven hits, one a fluke home run but he was stingy in the pinches. He struck out 14 men so it is easily seen that he was a great factor in the Girard victory. Vaughn also pitched a good game but his support was wobbly and this helped the visitors along.

Girard proved one of the best teams that has appeared here this year. The men hit the ball hard and also played an excellent fielding game. Sutton, Smithson and Talkington led in the hitting while England's one hand grab of Clark's line in the fifth was the best bit of fielding done by the visitors.

* Dickason playing right field for the Indies featured the locals' defensive work with two brilliant catches, both off of Fletcher. The first one he took while running at full speed with the ball and doubled Talkington at first. Kolhoff at second also played a good fielding game while Clark and Vaughn led at the bat.

How the Runs Were Made. Girard got busy in the first inning. Sutton doubled to left, Thompson hit DeFrates. "Hap" hesitated too long in trying to hold Sutton at second and Thompson reached first in safety. Smithson singled scoring Sutton and sent Thompson to third. Smithson took second on the throw to the plate. Talkington singled, sending Thompson and Smithson over. Fletcher hit to deep right Dickason took the ball while running at full speed. Talkington thinking it was a sure hit was nearly at third when the catch was made and was easily doubled at first. Dickason was safe on an error but Clark was out. Vaughn to Wheeler.

The Indies first broke the ice in the third. Clark doubled after Dickason had struck out. Vaughn flied to Smithson. Kolhoff singled down the third base line and Clark took third and scored on Fletcher's error.

Girard got two more in the fourth. England reached second when Rush muffed his fly. He took third on Clark's cut. Kolhoff to Wheeler. Driver hit DeFrates and England was caught at the plate. Driver being safe at first. Christopher missed Padgett's grounder and Driver took third and Padgett scored. Vaughn threw the ball wildly to third and Driver scored. Padgett scored on Sutton's second double.

After Rush had gone out Driver to Fletcher in the fifth, Dickason singled. Clark lined out to England. Vaughn singled and Dickason took second. Kolhoff singled scoring Dickason, and Vaughn took second. Both runners moved up on a wild throw by Padgett trying to catch Vaughn at second base. Smithson got the ball and pegged wildly to third and Vaughn scored. Wheeler ended the inning by striking out.

Girard added one to her total in the seventh. Sutton singled and took second on a wild pitch. Thompson flied to Hamm. Smithson singled scoring Sutton. Smithson was out stealing. Clark to Kolhoff. Talkington singled but Fletcher was out Kolhoff to Wheeler.

The locals added two in their half of the seventh. Clark walked and scored on Vaughn's home run, England being unable to find the ball in the wheat field.

Girard scored her last run in the eighth. With two down Driver walked and took second on Padgett's single, scoring when DeFrates fumbled Sutton's grounder. The Indies tried hard in their half but were only able to get one run over. Hamm walked with one down, took third on Christopher's single and scored on DeFrates' two base blow. Both were stranded when Padgett wriffed Rush and Dickason. Clark singled in the ninth but was forced at second when Vaughn grounded to Fletcher. However, Kolhoff struckout and Wheeler lined to Smithson.
